SUZUKI KINGQUAD 750AXi 4x4

MSRP: \$8,899 / \$9,299 (Camo)

The Suzuki KingQuad 750AXi carries on the tradition of performance that rules.

The Suzuki KingQuad 750AXi is engineered to tackle the toughest jobs and nastiest trails without breaking a sweat. It's loaded with technologically advanced features for impressive all-around performance: the Suzuki fuel-injected KingQuad 750 engine, housed inside a high tensile steel frame, develops abundant torque (especially in the low-to mid-rpm range), which gives the 750AXi exceptional performance and power. Independent rear suspension provides a comfortable ride over any terrain, a locking front differential and a host of other valuable features place the KingQuad 750AXi at the front of the pack.

Colors for 2014: Terra Green, Flame Red and True Timber XD3 Camouflage color schemes.

TOP 10 FEATURES

A powerful 722cc liquid-cooled DOHC, four-valve cylinder head Suzuki fuel-injected engine is tuned to deliver mighty low-to-mid range torque and high RPM output. The KingQuad's lightweight aluminum cylinder is canted forward 48° for optimal weight bias, allowing lower seat height. The cylinder bore is coated with SCEM (Suzuki Composite Electrochemical Material) for improved durability, weight reduction and superior heat transfer.

Suzuki pioneered ATV fuel injection and the unique, class-leading Suzuki fuel injection system on the KingQuad 750AXi was designed from high-performance ATV technology, providing excellent throttle response, fuel efficiency and quick engine starts under all operating conditions.

The efficient and functional fully automatic QuadMatic™ CVT-type transmission is designed for maximum utility-friendly versatility and convenience. A fender-mounted gate-type shifter operation for high/low, forward ranges, plus neutral and reverse makes it easy to conquer a wide variety of terrain and trails with ultimate rider convenience including an advanced engine-braking system helps the transmission control vehicle speed to minimize freewheel during descents.

A compact torque-sensing limited-slip front differential offers powerful traction plus light steering effort. A differential-lock system delivers serious 4WD traction. You can easily select 2WD, 4WD & Differential lock 4WD modes with an easy-to-use handlebar-mounted button. The KingQuad 750AXi shaft drive system is reliable, durable, and provides nearly maintenance-free operation.

Dual front hydraulic disc brakes with large 200mm discs and lightweight calipers provide maximum brake pad surface area for increased stopping power and outstanding durability.

Sealed, multi-plate rear brake system, with a clutch-type design, provides high durability, offers reduced unsprung weight, and is low-maintenance. Its sealed design ensures strong, effective braking over nearly any kind of terrain or conditions.

Lightweight independent double A-arm front suspension provides long suspension travel (7.1 inches of wheel travel), and includes large-diameter shock absorbers with 5-way preload adjustable shocks to dial in a comfortable, smooth ride on a variety of trails and terrain.

Lightweight fully-independent A-arm and I-beam rear suspension with long suspension travel (7.9 inches of wheel travel), includes large-diameter shock absorbers with 5-way spring preload adjustment and large-diameter I-beam, that provides unrivaled performance and stability.

The KingQuad 750AXi is equipped with Suzuki's exclusive T-shaped seat that was designed for all day comfort and easier body-weight transition. The large 4.6-gallon fuel tank is positioned below the T-shaped seat helping to keep a low center-of-gravity for excellent handling and stability.

The KingQuad 750AXi has an easy-to-read LCD instrument display which includes speedometer, odometer, twin trip-meters, hour-meter, gear indicator, fuel gauge and drive mode readouts. Working together with twin front headlights and a class-leading handlebar-mounted auxiliary headlight that gives focused lighting in the direction of intended travel and can be switched off independently.
